

## ACHIEVE REAL-TIME CLARITY ACROSS ALL ASSETS

In fast-evolving markets, having timely insights into both public and private assets is essential. While public assets provide minute-by-minute data, private assets often lag, creating blind spots in decision-making.

Edelscourt's Real-Time Portfolio Alignment bridges this gap by aligning private asset information with live market conditions, empowering leaders to manage risks and seize opportunities without delay.

## THE CHALLENGE

Public assets update instantaneously, while private assets can fall months behind. This discrepancy hampers strategic decisions, as leaders rely on partial, outdated information. When markets change daily and opportunities move fast, every delay affects your portfolio's performance and resilience.

## WHY CHOSE EDELCOURT?

Edelscourt's expertise transforms complex, delayed data into actionable insights. Our real-time alignment approach empowers institutional investors and family offices to make informed choices, keeping every asset in focus with the latest market realities.

## EDELCOURT'S SOLUTION

Our Real-Time Portfolio Alignment approach synchronizes your entire portfolio by mapping private investments to relevant market indicators. This innovative solution reduces reliance on delayed information, providing you with a current, cohesive view across asset classes.

## WHAT THIS MEANS TO YOU

- Clearer Insights: See a unified, real-time picture of all assets.
- Enhanced Decision-Making: Rely on up-to-date information to support strategy.
- Improved Risk Management: Manage risks dynamically and in sync with market movements.
